Subject: MDA redux

Good morning Dr. Tricker--

I had a phone message today from Klaus von Holt (alphabetized as "v" by Outlook, but by "h" on the INBIFO phone directory. My antecedents the Van Hooses are alphabetized by "v" in all the genealogical compilations I have ever used.) which indicated his beliefs that my MDA questions in the email dated January 15 had been answered in the report from an INBIFO meeting held last week. I did not yet have that report, but Jan did. I've tried 2x to fax it to you and had no success. I will try one more time tonight, and then start again tomorrow a.m. It's only 3 pages, so if you don't get until I get in tomorrow we probably can still talk. You will see some of my concerns in the message I will now send to von Holt. Are you available Friday around 3:30 your time?
